WORK EXPERIENCE

Front-End Intern, Ultrack Technology Sdn. Bhd.
Cyberjaya

Jan 2024 - May 2024

Development Experience:

- IonConnect Dashboard for DRB-HICOM: Participated in the development of a custom dashboard solution, contributing to the front-end and integration tasks.
- KESPA Dashboard: Assisted the development team in implementing core features for the internal system dashboard.
- PropKita Product: Worked as a software tester, executing test cases to ensure functionality, usability and performance of the platform.
- PropKita Landing Page: Supported front-end development tasks, helping to build and improve the public-facing landing page.
- File Tracking System for PDRM: Designed a user interface mockup for a proposed dashboard using Figma, focusing on user experience and system flow.

Minor Contributions:

- Gained hands-on experience in setting up a Dell PowerEdge R620 server, including physical configuration and basic troubleshooting.
- Learned and performed operating system installation, contributing to system deployment and server readiness.

Staff Associate, Mydin Taman Batik
Kedah

Mar 2021 - Jun 2021

- Assisted in daily stock reporting for each incoming and outgoing item so as not to cause confusion in the system.
- Assisted in weekly meetings by gathering all staff in the Beverage Department and resolving any issues that arise during work.
- Managed to increase monthly sales to over RM 10,000 in May 2021 by helping to promote goods to customers.

EDUCATION

University Kuala Lumpur Malaysian Institute of Information Technology Kuala Lumpur Bachelor of Information Technology (Hons) in Software Engineering CGPA: 3.76	Oct 2024 - Present
German-Malaysian Institute Bangi Diploma in Software Engineering (Software Testing) CGPA: 3.39	Jul 2021 - May 2024
Sekolah Menengah Kebangsaan Sungai Pasir Kechil Sungai Petani SPM, Accounting Grade: 1A+ 1A 3B+ 3C+	Jan 2016 - Nov 2020

PROJECTS

GMi Chäft – Campus Marketplace Platform - Designed and implemented responsive UI components with a focus on performance, usability and maintainability - Built a seller analytics dashboard to track transactions, listings and user activity using structured data handling - Integrated payment gateway solutions (QR Pay, Razer Pay) for secure, cashless transaction processing	
CherasRians Athlete System – Sports Management Platform - Developed a full-stack web application using React.js, Node.js (Express) and MongoDB, implementing a role-based system (Coach, Student, Exco) - Designed and built RESTful APIs for booking, scheduling, attendance and performance tracking with structured data flow - Engineered an automated booking workflow with approval logic, schedule generation and equipment inventory management	

CERTIFICATES

- CISCO CCNAV7: Introduction to Networks
 - Foundational C# with Microsoft
 - Bersama Malaysia: Microsoft AI for All
 - Google Project Management Professional Certificate
